

MUNTING BUHANGIN BEACH CAMP, INC.

Munting Buhangin was so named as such because of its white sands. It is perfect for swimming because the beach is tilted gradually keeping water level low even far from the shoreline. The property has an area of 24 hectares mostly virgin forest and the beach front. Through the years, we have continuously developed facilities and improvements for the enjoyment of its clientele. It has become a byword for company and family summer outings because it has a wide beach front. It allows people to bring cooked food, or cook on site. Barbeque areas are everywhere. It became the favorite excursion site of several companies especially those in the Calabarzon areas. The personalized services that we give to the guests is one of the reasons that endears us to them because we made them feel at home and safe in the beach resort. Now, as far as from the north, we have guests going to us.

Extensive marketing efforts were intensified to promote the resort to the prospective clients. At the same time we maintained the beauty of the beach for the sun bathers by keeping the surroundings clean and green.

Munting Buhangin is open to the general public. The cost is very affordable. Munting Buhangin Beach resort is the Puyat family's contribution in providing enjoyment to the public because of its very beautiful, clean and wholesome beach without going to as far as Boracay.
