RB-CURE

(Resin-based Liquid Curing Compound)

ASTM C-309 Type I & AASHTO M-148 Type I

DESCRIPTION: Is a resin-based liquid curing compound that dries up rapidly to form a tough, resilient, and colorless film. This film restricts water loss from the concrete matrix and retards water evaporation.

USES: excellent for use on all concrete surfaces whether horizontal or vertical. Treated with this may be topped and rendered or have other treatments as the materials *will in no way affect adhesion.* (e.g. floor covering such as vinyl tiles, etc.)

EXPECTATIONS:

1. Formulated to comply with the specifications of **ASTM C-309 Type I** and **AASHTO M-148 Type I.**
2. For use on horizontal or vertical surfaces.
3. The film restricts water loss from the matrix during curing stage.
4. No deleterious effect on the qualities of good concrete.
5. Safe and easy to use, without harmful effects on personnel or equipment.
6. Clean all equipment with clean water.

APPLICATION: Apply by low pressure spray or mop to form a thin and even film on freshly concrete only once as soon as the surface can be safely walked. On walls, columns, etc. apply immediately after forms are stripped.

COVERAGE: Best not exceeding 300 square feet per gallon.

PACKAGING: One (1) gallon plastic container
Five (5) gallons pail or carboy
Fifty-five (55) gallons steel drum
