## Product Info

### **DORON MOISTURE BARRIER** (Polyethylene Sheet) **ASTM C171**

**DESCRIPTION:** A transparent polyethylene film of uniform thickness. It acts as a permanent moisture barrier under concrete slab floor.

**USAGE:** 1. For the protection of floor against moisture, oil and other hazard.  
2. In porous or absorbent round in order to retain water in the concrete thus, eliminating too fast drying out.

**PERFORMANCE:** As a permanent moisture and moisture-vapor barrier under concrete floors and between concrete slabs. When used between concrete slabs floor, it acts as an underlay preventing loss of moisture and current paste, prolonging hydration thus, ensuring stronger concrete. The water and heat resistant filler protects the film from the heat hydration of concrete mix.

**SURFACE PREPARATION:** Before concrete pouring takes place, eliminate all sharp projection or irregularities which may puncture the moisture barrier cover the entire area with a layer extending past the perimeter of the slab and turning up against walls of depths of the concrete.

#### **APPROXIMATE COVERING:**

- a.) 0.004 inch x 2 meters width: 10.42 sq. m/kg.
- b.) 0.006 inch x 2 meters width: 6.95 sq. m/kg.

**PACKAGING:** In rolls of two (2) meters wide.

**JESUS CHRIST ALONE SAVES**
