

EMERGENCY MEDICAL RESCUE TOOLS

- SPINE BOARD AND HEAD IMMOBILIZER

Brand: Laerdal, made in USA

Description: The Baxstrap Spineboard's lightweight and Durable carbon fiber design enables the spine board to remain completely rigid with patient weights up to 110 kgs while only weighing 8,6 kgs. Due to its water resistant qualities, the spine board can be used in all environmental conditions and is easily stored for transport.

Description: This spine board with spider strap is made of PE material with no discharge contaminator, and firmness to wear. This plastic spine board provided by our company also can be used as a floatable device. Load Bearing: Less than 159 kg.

Brand: Ferno, made in USA

Description: Immobilizer is simple to use and light weight. Includes two plastic-coated, closed-cell foam head supports, a universal attachment base, and two durable head straps. The base plate fits all Ferno backboards (except the NAJO Sports Board).

Description: Universal head immobilizer made of high density plastic materials, large ear holes for monitoring the patient's ear canal
