AED (Automated External Defibrillator)

Brand: Zoll, made in USA

Description: Real CPR Help provides a metronome that uses real-time compression data to instantly adjust and help keep the rescuer administering chest compressions at the optimal rate. It has one-piece electrode, which allows the pad to be placed quickly, directly in the center of the SCA victim's chest.

The Zoll AED Plus uses long-lasting lithium batteries; in fact, it's the only AED available on the market that utilizes them. Not only are these both affordable and accessible, they will last up to five years when the device is left in standby mode. AED maintenance is made even easier because the CPR-D adult electrode also lasts five years. No confusion, no hassle.
